

PrimaMaju™

Providing Affordable and Long Lasting

Corrosion Protection

PRIMAMAJU™ STEEL AS A PREFERRED OPTION FOR YOUR ROOFING AND WALLING APPLICATIONS PROVIDING COST EFFECTIVE AND EXCELLENT CORROSION RESISTANT BUILDING SOLUTIONS.

Is corrosion affecting the service life of your building? BlueScope Steel Malaysia introduces PRIMAMAJU™ steel, a prepainted zinc/aluminium alloy-coated steel with a coating mass of 100 grams per square meter, which has gone through stringent testing to ensure outstanding corrosion protection. PRIMAMAJU™ steel has been proven to outlast prepainted galvanized steel (P.P.G.I.) in terms of corrosion resistance.

Added to this, it is available in 6 standard colours, non-combustible, termite resistant and easy to maintain. It is also securely fixed in long, continuous sheets providing a weather tight roof.

PRIMAMAJU™ steel is environmental friendly as it is fully recyclable, thus making it the ideal material to be used for roofing and walling applications in industrial, commercial and infrastructure projects that require cost effective solutions.

You can rest assured the quality of your building because PRIMAMAJU™ steel is a cost effective solution and meets international standards and offers a warranty* of up to 10 years against corrosion.

**Warranty terms and conditions apply.*

- **CORROSION RESISTANT**
- **SUBSTRATE OF ALUMINIUM-ZINC COATING (AZ100)**
- **MEETS INTERNATIONAL STANDARDS (I.E. JIS G3321 AND JIS G3322)**
- **SUPERIOR PAINT PERFORMANCE**
- **WEATHER TIGHT AND SECURE**
- **AVAILABLE IN SIX STANDARD COLOURS**
- **EASY MAINTENANCE**
