

Zincalume®

Made Only By BlueScope Steel

ENJOY THE ADVANTAGES OF
ZINCALUME® STEEL

**BLUESCOPE
STEEL**

OUTSTANDING PERFORMANCE IN STRENGTH & DURABILITY

CORROSION RESISTANCE	The unique zinc and aluminium coating of ZINCALUME® steel outlasts Galvanised steel (G.I.) by up to 4 times longer depending on the environment.
YIELD ADVANTAGE	The metallic coating weighs less, giving you more square metres per tonne than Galvanised steel (G.I.).
FORMABILITY	Equivalent formability to conventional galvanised products allows use in a wide range of applications.
ATTRACTIVE APPEARANCE	The satin-smooth surface and visually appealing finish of ZINCALUME® steel provides the ideal surface for aesthetic applications.
RESIN COATING	The clear resin coating on its smooth surface resists scuffing and handling marks. It does not need any lubrication prior to forming. The surface is less slippery and thus, easier to handle.
HIGH TEMPERATURE RESISTANCE	ZINCALUME® steel is suitable in high temperature application of up to 250°C.
THERMAL REFLECTIVITY	ZINCALUME® steel reflects a high percentage of heat and light and thus can accommodate to your cool building design.

Zincalume®
